

TECHNICAL SHEET

ARSIS STRAIGHT BAR

Bright Anodized

049661

PRODUCT DESCRIPTION

The ARSIS aluminium grab bar can be installed in a shower or bathtub area. It can be positioned vertically, horizontally or 135°. It allows you to cross the step of a tray or the edge of a bathtub (in an upright position only), to keep your balance in a standing or sitting position, to get up and to transfer from one support to another. It will bring a touch of design and modernity to your bathroom. It offers an optimal grip thanks to its 38 x 25 mm elliptical tube. The fixing covers are made of polymer. ARSIS straight bars are available in several sizes and colours and can be combined with ARSIS shower seats.

PRODUCT ADVANTAGES

ELLIPTICAL TUBE

CONCEALED FIXINGS
