

BIARRITZ WASHBASIN

White

052644

PRODUCT DESCRIPTION

The curved BIARRITZ washbasin is a piece of equipment adapted for people with reduced mobility (PRM) ideal for shared spaces, combining modernity and functionality. It is made of composite material, a mixture of marble powder and synthetic resin (meeting the NF EN 14688 standard). Its smooth, non-porous Gel-Coat coating ensures ease of cleaning and resistance to scratches and temperatures up to 95°. It is equipped with a front skirt and a 10 cm backsplash to limit splashes on the wall. The vanity top, while compact, offers a small, convenient space to store your toiletries or other essentials. This washbasin can be delivered with a central hole or a tip side for the taps or without a hole, depending on your preferences (to be defined when ordering). It is sold without taps or drain drains, giving you the freedom to choose the accessories that suit your needs and style.

PRODUCT ADVANTAGES

EASY TO CLEAN

PRM COMPLIANCE
